

SACEP CREATION CARE CONFERENCE

at St Ursula's Church Berne Saturday April 28th 2018,

10am to 4pm (9.30 Coffee!)

Book your place at: hilaryjones@bluewin.ch or on 0613217477

Cost pro person CHF 20.— includes lunch and all refreshments...

(payable on day)

Come and find out

how we all CAN make a difference to our common home—the world we live in! This conference gives us a unique opportunity to find out more, to share and discuss.

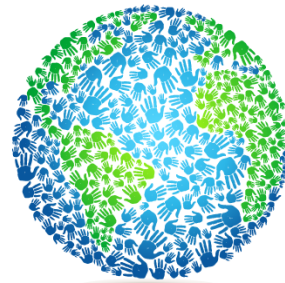

We will have speakers from **A Rocha** who will give us information on a variety of practical issues, ranging from living lightly, consumerism, ethical questions and encouraging children (and adults) to see the wonder of God's creation around them.

We also have a speaker from '**Green Christian**' Organisation who will introduce us to the 'Joy in Enough' campaign which challenges Christians to play their part in creating a fair and sustainable economy. *"It's tempting to hear the word 'economics' and switch off" says Tony Emerson, coordinator of Joy in Enough. "We might think we're not interested in economics – but then we all have opinions on debt, house prices or working hours, and those are all economics questions! Our faith can guide us as we think about these issues, both in our personal choices, and our wider political life."*

We are surrounded daily by negative headlines, come and be POSITIVE and hopefully have some FUN, too!

OPEN to anyone
with an interest in these issues.

Organised in conjunction with the Diocesan
Environment Officer: Revd Elizabeth Bussmann
